

SAFETY INFORMATION AND POLICY

Security personnel are on duty in our hospital to provide a safe environment. Our relevant personnel are authorized to search for luggage and vehicle control in the hospital when necessary for your safety. In addition, for security reasons, the common areas in our hospital are monitored 24 hours a day with a closed-circuit video system and the images are recorded.

For your safety, we ask you to pay attention to the following points:

Please do not bring more than necessary items to the hospital. If you have valuables with you, you can put them in the safes in the rooms or deliver them to your companion in case of leaving the room. If you are alone, you can ask your nurse for help in handing over to security personnel.

In case of loss of any of your belongings, inform your nurse so that the security guards can intervene.

Do not let other people other than hospital staff guide you, do not ask for help from them. In any case, please contact your nurse and the relevant hospital staff.

When you see a suspicious person or event, please inform the hospital staff in your department.
